

Jungle Journey

Sticking your neck out!

Have you ever noticed that a giraffe is taller than most of you. There is an animal that is taller than both of us– it's the giraffe. If a giraffe was standing next to an adult it would be about 18 feet tall. That is more than three times as tall as an adult.

A giraffe has a huge heart because it has to pump the blood all the way up to it's head. Imagine how hard it would be if you had that long of a neck? What would your bed look like if your pillow was all the way over there and your head was way down there. Because the giraffe is so tall I don't think it really misses a lot. The Bible tells us that God doesn't miss a thing.

He sees us from the outside and from the inside. He knows what is happening in our hearts. God sees us all and can take care of all of us. God has such a great big heart that even when we are doing bad things he still loves us and forgives us.

"The eyes of the Lord are everywhere, keeping watch on the wicked and the good." Proverbs 15:3
