

What is your identity?

What is your identity? Do you know who you are? Each one of us has been uniquely crafted by the creator of the universe. We all have different fingerprints, looks, features, eye color. Even identical twins have differences. Our identity has to be in Christ Jesus. .

According to a Ripley's column, the country of New Zealand rejected the following names for babies: "Talula does the Hula from Hawaii," "Yeah Detroit," "Fat Boy" and "Fish and Chips." They did, however, accept the name "Number 16 Bus Station." Some people have been given names they have to live down. We have been given a name we can live up to. That name is "Christian."

We have to "put on" Christ. A store clerk in California named Bill Capell has just found out that he is the next Earl of Essex in England. Due to inheritance law and custom, he now has an honorary seat in the House of Lords. Too many Christians live their lives unaware that they are spiritual royalty. They are children of the King. There is a hitch in Bill Capell's situation. To get his title he will have to give up his US citizenship, something he is reluctant to do. This is the same for us. We have to live our life fully for the Lord and his work.

How about you? Are you living up to your potential in Christ? He has crafted you for a special work- there is a special calling on your life that only you can fulfill.

"Therefore if any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new." II Corinthians 5:17
