

Students

imagine

you are here

and you can go there

and you can impact there

and create change here

DIY Touch the life of an MK - Home School & Christian Schools

Let's Pray and Study:

MK Prayer Puppets—This hands-on tool is a great resource to teach students how to pray for MKs. The key gives 3 points to pray for MKs in each region. As they pray for the MKs they hold the corresponding puppet in their hand. Sets can be ordered at www.upwithmks.com (\$10 per set)

MK Resource Pages—Our website provides a page about each MK with their name, their nation, things to pray over that specific MK, and a hands-on activity. Students can become a prayer pal with the MK of their choosing.

MK Prayer Bookmarks—This free resource gives Students ideas of things to pray each month and fun things to send them as well.

Prayer Map—hang up a free prayer map in your classroom. MKs become real as they see their faces and pray for them.

Prayer Globes—match up the country that each MK lives in and pray for that MK as you touch their nation. This is a great way to reinforce geography and missions.

Download the special "Missions Follows God's Command" Sunday School lesson on the website.

Talk to your missions secretary at your local church and find out which missionaries you currently support. Email those missionaries and MKs to see what prayer needs they have.

Download one of our Homeschool lessons that teaches kids the importance of missions. See our website at www.upwithmks.com

Let's Get Hands On:

Send MK Birthday Cards and notes of encouragement to MKs. For a full list of MK names, nations, and birthdays, please email us at info@upwithmks.com

Become a "Pen Pal" with an MK around the globe. See our pinterest page for great ideas of fun things to send to MKs and ideas to get the "conversation" started.

"Cook with Me—Pray for me" Recipe Cards. Students can eat and pray their way across the globe with these six great recipe cards. Each of the six geographical regions offers recipes filled with ingredients found in North American grocery stores. Help the children make the dish and pray for the MKs of that region. This is a great project that incorporates math (measurements), geography (finding the region the food is from), and hands-on learning as the teacher and student cook their way around the world. (\$5.00 per set)

Start a "Change the World" Drive. Have students collect loose change from friends and family. This money can be sent to MK Ministries and will be applied towards Scholarships for MKs to participate in regional MK training events, and MK Retreats.

Have a Bike-a-thon. Did you know that Bicycles in other countries are very expensive? Most of our MKs don't have bicycles because it is cost prohibitive for their parents. Why not have a Bike-a-thon and raise money for an MK to have a bicycle overseas? The cost of an average bike is \$200-\$300.00 per MK.

Have a "Read-a-thon". Most countries don't have English libraries available for MKs to read books. We want to provide e-readers for all of our MKs. Why not have a read-a-thon with other home schooling families?

Have adults sponsor Students for each book they read. This money can be sent to MK Ministries and will be applied towards e-readers for MKs around the world.
